YAE SEED

HYBRID MELON

OTEDAMA

ヤエタネ

POCKET SIZED, JAPANESE STYLE RED MELON

OTEDAMA *F1*

- A lovely red fleshed melon that is miniature in size, but big on flavour.
- These melons are easy to cultivate, meaning they would be perfect for not only professional melon growers but also home garden growers too.
- The netting on these melons is easy to produce, making picturesque melons.
- Great sweetness at around 15% brix after 55 to 60 days.
- Able to harvest 3 fruits from one plant, with each fruit weighing approximately 700g.
- Resistance to Fusarium wilt (races 0, 2), leaf spot disease and powdery mildew.
